

Escrick Parish Council

Minutes of Escrick Parish Council monthly meeting held in The Wenlock Room at The Parsonage Hotel at 7pm on Monday 1st July 2024.

24131: **Welcome:** Chair welcomed councillors and members of the public to the meeting.

24132: **Apologies/Attendance:**

- a. Present: Cllr S Allen, Cllr Chambers (Chair), Cllr Croasdale, Cllr Cunningham, Cllr Fairbairn, Cllr Hawes, and Cllr King. Clerk; S Look. Member of the public.
- b. Apologies: Cllr M Allen and Cllr Hopkinson. It was noted that Cllr Marian Allen has resigned from the Parish Council.

24133: **Declarations of Interests:** Cllr Cunningham registered an interest in item 24148c.

24134: **Public correspondence received:**

- a. Electricity Network to The Old North Selby Mine. Noted.

24135: **Public session:**

- a. Nothing to report.

24136: **Updates from other authorities:**

- a. Divisional Councillor Cattanach not present. Cllr Cattanach reported that he will not be updating the PC on matters discussed at the other meetings he is attending in his division as they tend to be informal meetings to discuss their own parish issues rather than divisional matters. Work continues on the SDC Local Plan but obviously without Heronby. Cllr Cattanach has got concerns about the amount of traffic on the A19 at present. Work has only just started on the North Yorkshire Local Plan and NYC have been asking for potential building sites. The NY Local Plan will still need years to put together as officers endeavour to bring together all the local plans from the old District and Borough councils that now make up North Yorkshire. At County level, in a recent meeting Cllr Cattanach attended, Councillors were adamant that local councils be kept up to date and consulted. Officers agreed that this would be done. Cllr Cattanach suggested that the PC bus shelter lighting proposals could be explored with officers at NY as the shelter is a North Yorkshire asset. However, the Parish Council noted that the bus shelter in question is within the CYC boundary.

24137: **Minutes:**

It was resolved to accept the minutes of the Parish Council meeting held on Monday 3rd June 2024.

It was resolved to accept the payments as stated above.

Maintenance

24139: Maintenance issues:

- No new maintenance issues raised. It was noted that there is overgrowth on some footpaths in the village making them difficult to navigate.
- No further update from NYC on the S106 funding to replace the small fence posts surrounding the Dolphin fish fountain.
- Cllr Croasdale has been directed to contact the VGA chairman as a first step in dialogue concerning ideas about improvements to the pond area of the village green that he would like to see.
- Councillors resolved to write to a resident on Wenlock Drive concerning an overgrown hedge on the corner of Wenlock Drive / Skipwith Road. To request that it is cut back as visibility is difficult when turning out of the road.

Playing Field / Play Area

24140: Playing field update:

- Inspections done. Cllr Fairbairn reported that the summer event planned by the Playing Field committee will no longer take place due to the lack of volunteers.
- Playing Fields Association meeting was held on 11 June 2024. Noted.

Planning

24141: Planning, new applications:

- ZG2023/0798/REMM. Land Between New Road And Wheldrake Lane, Wheldrake Lane, Escrick. Reserved matters application including appearance, landscaping, layout and scale of approval 2019/0045/EIA Outline application for redevelopment of the former North Selby Mine site to a leisure development comprising of a range of touring caravan and static caravans with associated facilities submission of details relating to condition 5 (colour of caravans) and 12 (landscape). Additional info & plans uploaded 20.06.24. Councillors object to the application. Concerns raised about the proposed pedestrian access to public transport on the A19 as there is not a pedestrian footpath or safe crossing to the northbound bus

stop into York. P11 V.5 says permission will be granted if the site is readily accessible to public transport - which it is not. 2.3.2 Policy DP2 on sustainable development says the aim should be to improve Highway network capacity safeguarding routes and sites - the increased traffic flow will not do that. EC5 - states:

- 1) location should be accessible to local amenities - again it is not, even in their own works they say the site is remote;
- 2) within walking distance of public transport to York - it at least 40 mins walk;
- 3) will not create significant volumes of traffic - this is not the case as the report admits that access will primarily be by car. Section T1 - is about sustainable access and states no issues getting onto A19 - councillors strongly disagree with this - especially if towing a caravan.

The wording in the rest of the plan is questionable and has no measures attached to them – e.g. promoting shared car usage - but using their own words on an informal basis.

Concerns were also raised with regards to limiting the access times to avoid congestion on A19 but uses the phrase - initial timings for handover - which means they may change. In short councillors are concerned that this is a fundamental change to the original proposal and feel NYC planning are in breach of their own rules on granting permissions for developments like this, and that greater certainty on future changes should be applied e.g. timings of handovers. Councillors would also like confirmation if NYC are resurfacing the whole mine road. If not, then that could be interpreted as another breach of NYC's own rules as the current road surface is not suitable for current levels of traffic never mind what is being proposed in this application.
